

# Positive Behavioral Interventions and Support

(PBIS)

Mary Blanton

CEP883 – July 18, 2011

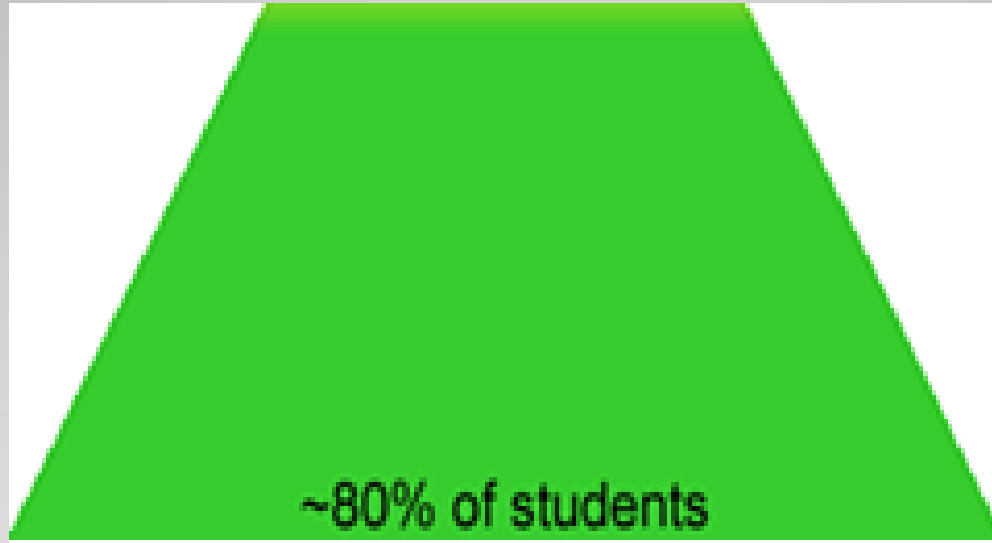

- Using data to determine what is working and what needs to change in terms of student supports.
- Collecting data throughout the interventions to ensure their success or modify them as needed.
- FABs and BIPs
- Formative assessments in classes
- Figuring out why certain students struggle with academics and/or behavior.
  - Poverty
  - Culture/background
  - Lack of skills
  - Mobility

## **Data-driven Interventions**

- CAT teams (collaborative achievement teams)
- Administrative/Counseling Team
- Special Education and ESL Team

**Data Collection Teams and Process**

## Positive Behavior

"Green Light" Students – 80% of students buy in and behave appropriately

# Green Light Interventions

- Develop PRIDE
  - Personal Responsibility
  - Respect
  - Integrity
  - Daily Effort
  - Embracing Community

The PRIDE acronym drives behavior throughout the school. All expectations for all classes are the same.

**School Culture - PRIDE**

- Mini-lessons in classes each day at the beginning of the period to describe what each aspect of PRIDE “looks like” around school in various places. (eg. Integrity in the cafeteria, gym, classroom, etc.)
- Role playing
- Teachers help to develop lessons so there is whole school buy in

**Teaching PRIDE through explicit instruction**

~80% of students

- PRIDE tickets
  - Given by teachers to reward positive behaviors
  - Whole school drawing at the end of each week for prizes

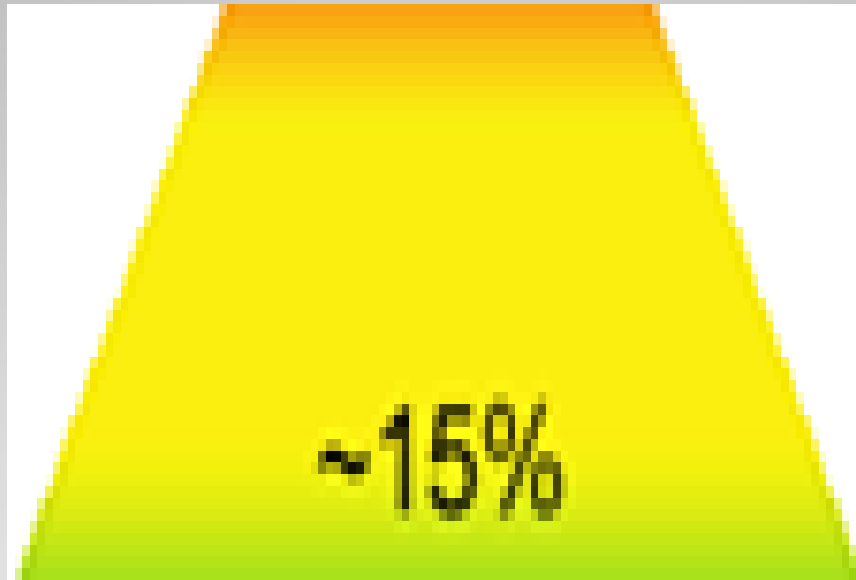

**Reinforce Positive Behavior**

- Proficiency-based (standards-based) assessment
  - Takes behavior *out* of academic grades
  - Teachers focus on specific course learning targets
  - Separate behavior targets which allow for student reflection, teacher input, and parent involvement

## Green Light Interventions

## Interventions & Supports

"Yellow Light" students – 15% of students are in need of either academic or behavior intervention or support

# Yellow Light Interventions

~15%

- Honors Seminar – Freshman and Sophomores meet 10 times throughout the semester to develop skills to achieve at higher levels (open to all students)
- Academic Coaching – Students are placed into a small study hall to provide them with academic support from a teacher (reserved for students who are not passing certain classes)
- Homework Help – During study hall, students can go work in a room with various content teachers and students to assist with homework questions (access for all students)

## Academic and Behavior Interventions

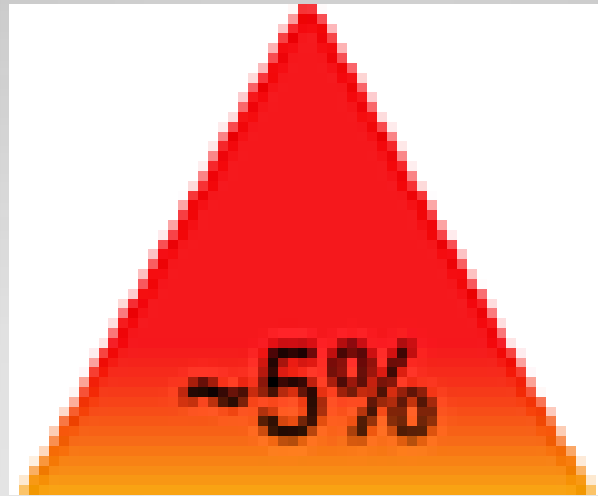

~15%

- Counselor Support Groups – Meet with small groups of students with similar problems to address concerns. (eg: Mean Girls Group)
- Ethnic Clubs – Allows some students who are disengaged from school to feel more connected because they are part of a club/team. (eg: Pacific Islander Club, Native American Club, Multicultural Soccer)

## Academic and Behavior Interventions Cont.

~15%

# Interventions and Supports

"Red Light" Students – 5% of students are in need of both academic and behavior interventions and supports.

# Red Light Interventions

- Intervention content/core classes with a focus on skill building. In addition to “regular” classes (English, math, science, social studies)
- Senior Social Science Seminar – focus on creating connections/relationships to students/families and also goal setting and future/career planning (counselor involvement as well)

## Red Light Interventions

- Senior Social Science Seminar Video:

- <http://www.youtube.com/watch?v=zdos3zos7qw>

**Red Light Interventions Cont.**

- There are clear and explicit expectations for all students.
- It creates a positive school culture.
- It is research based.
- There is a focus on prevention rather than reaction.
- Interventions are developed through data collection and analysis.
- It creates success and increases motivation for all students.
- Increases student achievement.

## **Benefits of PBIS**

- It is a big philosophical change for some teachers.
- If one teacher chooses not to implement PBIS, it can affect the entire program.
- Parents choose not to be involved in the process.
- Student mobility in and out of the district.
- Administrators sometimes struggle to really understand how to fully implement PBIS.
